

CONTENTS

INTRODUCTION	5
AIR INDICATORS	7
<u>INDICATOR 1</u> : “Trends in ambient air quality for each of the 6 criteria air pollutants.”	7
Overview	8
Summary Matrix	10
Interview Results	11
<u>INDICATOR 2</u> : “Number of non-attainment areas and their Associated population that reach attainment, including the number of ozone non-attainment areas that meet the 1-hour ozone standard.”	21
Overview	22
Summary Matrix	24
Interview Results	25
<u>INDICATOR 3</u> : “Emission reductions since 1990 for each criteria air pollutant, as discussed in each annual edition of EPA’s National Air Pollutant Emission Trends report.”	33
Overview	34
Summary Matrix	36
Interview Results	38
<u>INDICATOR 4</u> : “Trend in emissions of toxic air pollutants.”	51
Overview	52
Summary Matrix	54
Interview Results	55

WATER INDICATORS 63

INDICATOR 5: *“Percent of assessed waterbodies that protect public health and the environment by supporting a) fish and shellfish consumption, b) safe recreation, and c) healthy aquatic life use designations.”* 63

Overview 64
Summary Matrix 67
Interview Results 69

INDICATOR 6: *“Percent of permitted surface water discharges (all, major, and/or minor) in compliance (or significant non-compliance).”* 79

Overview 80
Summary Matrix 81
Interview Results 82

INDICATOR 7: *“Population served by public surface water {break down by community, transient, and non-transient non-community} with state-approved source protection programs / population served by public surface water systems” and “population served by public ground water with state-approved wellhead protection programs / population served by public ground water systems.”* 89

Overview 90
Summary Matrix 92
Interview Results 94

INDICATOR 8: *“Number and percent of public water systems and population served meeting health-based regulations.”* 101

Overview 102
Summary Matrix 104
Interview Results 105

ECOSYSTEM INDICATOR	113
<u>INDICATOR 9:</u> <i>“Percent of assessed rivers and estuaries with healthy aquatic communities.”</i>	113
Overview.....	114
Summary Matrix.....	116
Interview Results.....	117
 WASTE INDICATORS	 125
<u>INDICATOR 10:</u> <i>“Number of RCRA corrective actions and LUST cleanups completed per unit time or cumulative.”</i>	125
Overview.....	126
Summary Matrix.....	128
Interview Results.....	130
 <u>INDICATOR 11:</u> <i>“Amount of solid waste landfilled, incinerated, and recycled.”</i>	 145
Overview.....	146
Summary Matrix.....	148
Interview Results.....	149
 <u>INDICATOR 12:</u> <i>“Percent of non-product outputs reduced, including TRI waste; percent of non-product outputs reduced, including TRI waste, normalized for production; percent of non-product outputs, including TRI waste, attributable to pollution prevention; percent of non-product outputs reduced, including TRI waste, attributable to pollution prevention, normalized for production; percent of facilities that have implemented pollution prevention practices as a result of technical assistance.”</i>	 157
Overview.....	158
Summary Matrix.....	160
Interview Results.....	161
 <u>APPENDIX A</u> <i>Approximate Timeline for NEGIP Data Screening Work</i>	 173
APPENDIX B <i>Sample Data Screening Survey</i>	175
